The following air and ground activities were observed at Peenemuende airfield during the period from 1 to 20 August:

25X1

1. Location of Aircraft:

On 1, 4, 6, 9, 11, 13, 16 and 20 August, the total aircraft observed at Peenemuende varied from 26 to 35 MiG-15's and included two Po-2's. Four MiG-15's, which served as an alert unit, were parked close to the runway and the two Po-2's were always located next to the aircraft control building.

2. Aircraft Details:

a. All of the MiG-15's seen were painted silver-gray. They had a red Soviet star on the side-rudders.

25X1

b.

25X1

c. Only the alert unit was equipped with auxiliary fuel tanks.

3. Flying Activities:

During the reporting period, there was normal to lively flying in the mornings and afternoons. This included single and formation flights. The flights lasted from 10 to 15 minutes and ranged from altitudes of 600 to 1200 meters. From two to 10 MiG-15's participated.

4. Billed Troops:

a. The air force troops observed included about 1400 EM's and 300 to 400 officers who wore blue-blue, blue-white and blue-black shoulderboards.

b. The anti-aircraft artillery troops observed included about 400 EM's and 150 officers who wore black-red shoulderboards.
